

new PECUS2 duo

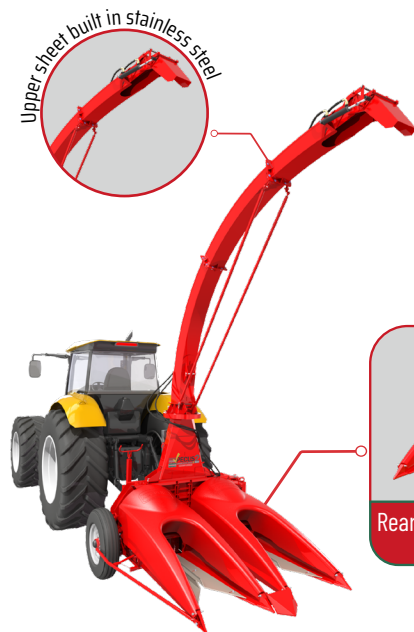

NOGUEIRA

More productivity and simplicity

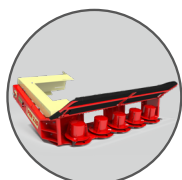

New Pecus Duo, a double row harvester recognized in its class for high production, resistance, and simplicity! Easily maintained and adjusted, its two collector boxes feature gear transmissions. As well as the upgraded fairing system, it has improved harvesting performance, further improving pick-up roller efficiency. With its double knife sharpening system, the cutter rotor knives are sharpened uniformly and safely.

SPECIAL FEATURES

Optional items

PRN 2.0 D

Technical Features

Production	Up to 45 TON/HR
Chop size	24 (From 2 mm to 36 mm)
