

DPM JR POWER

Desintegradora, Picadora y Moledora

Introducing the new **DPM Junior Power**, now with improved design for better performance in all its functions. It's the best option for chopping and grinding a variety of feed for your livestock. This versatile machine is perfect for cutting grasses, sugarcane, and maize for forage, as well as grinding and crushing dry feeds like maize on the cob and other grains, ensuring efficient and high-quality results every time.

It offers versatility in motor options, being able to work with both electric motors and diesel or gasoline engines.

- **Electric Motor:** Compatible with 2 to 3 HP motors.
- **Diesel and Gasoline Motor:** Works with 4 to 6 HP motors.

Powerful rotor with 3 high-strength steel blades and 3 fixed hammers with four cutting edges

Production Maize Kernels:

		
Sieve 0.8 mm	Sieve 0.3 mm	Sieve 0.5 mm
		
Up to 65 kg/h	Up to 350	Up to 750

Maize Cob

	
Sieve 0.5 mm	Sieve 10 mm
	
Up to 250 kg/h	Up to 350

Forrage

Smooth Plate

Up to 850 kg/h

Production [KG/H]	
Rotation [RPM]: 4.200 RPM	Number of hammers: 3
Number of blades: 3	Approximate Weight: 52,890 kg
