

VMN 3.5

Vertical Line

The Nogueira VMN 3.5 ECO Mixer is a straightforward and user-friendly piece of equipment designed for those seeking to automate their cattle feeding process!

Its vertical endless screw system, along with blades and counter-blade, efficiently chop bales and blend all elements of your animals' diet, resulting in a consistent feed. This promotes increased production without any wastage in the feeder.

- ✓ Easy to operate, without the digital requirements of other models with scales.
- ✓ Feeding door for adding low-concentration flours and additives.
- ✓ Autonomy and practicality with hydraulic drive, allowing a single operator to control all stages of the mixing and unloading process easily.
- ✓ Robust construction that allows working in any terrain condition.
- ✓ High-strength and durable planetary transmission.
- ✓ Design, rotor, and transmission identical to the Mixer VMN line.
- ✓ Mixing flow guaranteed until the last animal.

Technical features

VMN 3.5 VERTICAL ECO

Production	3.5 m ³
Drive	Tractor
Recommended Power at PTO	from 55 hp
Required rotation at PTO	540 rpm
Height	2.100 mm
Digital scale	not included
Weighing cell	not included
Width	3.570 mm
Length	2.290 mm
Discharge door	Exit on the right side
Tires	10.5/65-16 RA 28 8 canvas
Empty weight	1.780 kg
